To Whom It May Concern:

In my position, as a Landscape Architect/Project Manager in a municipality in the Lower Mainland of BC, I have had the opportunity to work with Fuller Landscaping Inc. (Seann Fuller) on a number of projects, since 2005. Fuller Landscaping has been contracted directly on projects and on others has been the landscape sub-trade. In all instances, Fuller Landscaping always presented themselves in a professional manner and all their work was completed in a competent and professional way. I would not hesitate to recommend Fuller Landscaping for landscape projects.

I have enjoyed the relationship that I have with Fuller Landscaping and the knowledge that when I call them, that the product I receive will be completed without compromise.

Sincerely,

A handwritten signature in blue ink, consisting of several loops and a long horizontal stroke extending to the right.
