RE SEANN FULLER
FULLER LANDSCAPING INC.

To whom it may concern,

Fuller Landscaping was the landscape sub-trade for a recently completed neighbourhood park and greenway in Vancouver. The \$500,000 renovation incorporated just about every aspect of landscape construction, ranging from demolition, unit paved plaza, furnishings, large play ground, pedestrian bridges, walls, irrigation, tree planting, lawn improvements, and an asphalt bikeway. Each task was approached with enthusiasm and insight, often contributing the preferred solution when a situation needed a remedy.

The overall project was managed in a professional and competent manner, with Seann as the primary source of on-site activity and organization. To his credit, the project was satisfactorily completed, despite uncooperative weather and a challenging neighbourhood.

Having worked with numerous contractors over the years, without hesitation, I would recommend working with Sean Fuller and look forward to doing so myself in future.

Sincerely yours,
Paul Whitehead, BCSLA, Principal
