

Fuller Landscaping Inc.

Designing Your Dreams

Seann Fuller has been in the landscape industry for over 20 years. "I enrolled in the Douglas College Self-Employment Program and there I received training from industry experts on how to successfully launch and manage my own business.

Seann went on to build a very successful landscape company and has worked alongside some very talented landscape architects throughout the lower mainland. His eye for design and his attention to detail make him stand out in the landscape industry. Fuller Landscaping has been in business since 2000.

"From 2004-2009 our main projects were city parks for several municipalities throughout the lower mainland, installing playgrounds, plazas and sport fields, working closely with landscape architects. I now apply the knowledge I gained from working in the commercial industry to my residential projects." Fuller Landscaping's initial consultation is free of charge and takes place on the customer's property. This gives Seann the opportunity to discuss their needs, evaluate existing conditions and explore the possibilities for their landscape design.

"I will go to people's back yards and meet with them, get their ideas and make suggestions. We listen carefully to our customer's wants and needs, then design and create a space that is not only aesthetically pleasing but functional. We are currently booked into the summer completing large scale landscape projects." Fuller Landscaping offers commercial maintenance services as well but designing outdoor projects has become a major part of their business.

Being a locally owned and operated business, means customers are easily able to contact him should they have any questions. "We try to stay local with our jobs, approximately 90% of our business is here in the Maple Ridge area."

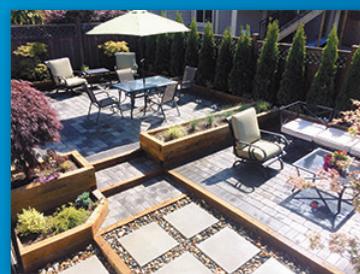

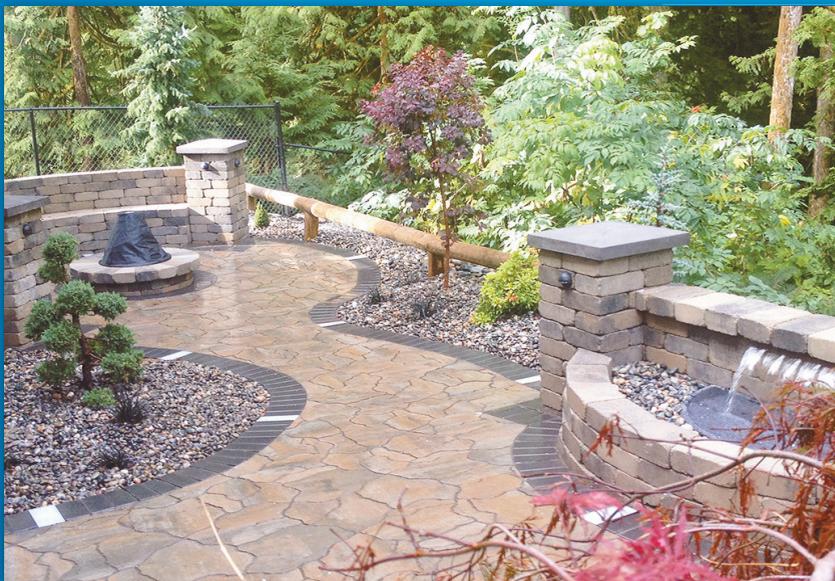

Whenever possible, Seann uses local suppliers to provide lumber, soil or plants. By purchasing local, it keeps the economy moving within the community. Seann also believes in hiring local if possible. "If we need someone, we only advertise locally. We currently employ ten full-time staff members. It is convenient and preferable for all the employees not to have to spend many hours on the road travelling from outside the community to and from our job sites.

Seann has lived in Maple Ridge for thirty-five years and has four children who all attend a local elementary school. Seann and his family are proud to call Maple Ridge home and happy to support local charities like Ridge Meadows Hospice Society and the Maple Ridge Christmas Hamper program. Seann also spends many volunteer hours coaching for the Westcoast Auto Group FC, Ridge Meadows Minor Ball Hockey Association and the Ridge Meadows Minor Hockey Association.

Fuller landscaping is a locally grown business with roots in the community. "We are pleased to service the Maple Ridge area and the many positive testimonials from our customers tell us we are doing the job right. If you are planning a landscape project, please give us a call. We'd love to help turn your dream outdoor space into a reality."
